

The Art of Vanishing

A Public Lecture

An exclusive opportunity to attend a lecture hosted by the Child Psychoanalytic Psychotherapy Association of Australia (CPPAA) and SphereSonores Productions.

In this talk and discussion we will be meeting with Jungian Analyst and Child Psychoanalytic Psychotherapist, Dr Jo Violet and the writer/composer/director of *The Art of Lies and Obfuscation*, Edward Primrose.

The concept of the Vanishing Twin Syndrome will be discussed, as it relates to the production and the resultant psychological distress of the show's protagonist, as she begins to process its reality. The speakers will explore what it means to both exist and vanish in the context of another, and the interplay of guilt, deception, destruction and healthy aggression in the strivings to call oneself alive.

The theatre work offers a playground for multiple dramaturgies as it seeks to resolve inconsistencies and contradictions but where the absurd may offer some insight.

Attendees will be entitled to a concession priced ticket for a performance of *The Art of Lies and Obfuscation*.

SUNDAY 22 SEPTEMBER 2019 2 P.M.
